

Halogen reflector

5995 EIM 150W GX5.3 21V 1CT

Philips' halogen reflector lamps offer the ideal no-fuss solution for a wide variety of medical, projection and scientific illumination systems. Their proven reliability makes them ideal for retrofit installations. The burners are precisely aligned for optimal light performance. Dichroic reflectors ensure heat dissipation towards the back of the optical system, which helps the optical system remain within temperature limits. A special blue-filter version blocking out unwanted light above 700 nm is available for dental curing applications. In addition, you get all the proven advantages of halogen technology such as a CRI of 100 – the same as natural sunlight for the best possible color rendering. Halogen lamps also create a comfortable warm white light, and they maintain their high lumen output with almost no lumen reduction throughout their lifetime.

Product data

• General Characteristics

Philips Code 5995 ANSI Code EJM LIF Code -Cap-Base GX5.3

Bulb Material Quartz-UV Open Reflector Finish Smooth

Operating Position s90
Main Application Projection
Life to 50% failures 40 hr

• Electrical Characteristics

Lamp Wattage 150 W Voltage 21 V

• Light Technical Characteristics

Color Rendering 100 Ra8

Index

Color Temperature 3400 K

Technical

• Product Dimensions

Overall Length C 44.45 (max) mm

Diameter D 50.67 (max) mm

• Luminaire Design Requirements

Pinch Temperature 400 (max) C Bulb Temperature 900 (max) C Working Distance 38 mm
