7. Precautions, Handling and Storage

- ÿ Do not attempt to take batteries apart or subject them to pressure or impact. Heat may be generated or fire may result. The alkaline electrolyte is harmful to eyes and skin, and it may damage clothing upon contact.
- ÿ Do not over-discharge, take out the batteries immediately from device when discharging finishing.
- ÿ Keep away from children. If swallowed, contact a physician at once.
- ÿ Do not mix GP batteries with other battery brands or batteries of a different chemistry such as alkaline and zinc carbon.
- ÿ Do not short circuit batteries, permanent damage to batteries may result.
- ÿ Do not incinerate or mutilate batteries, may burst or release toxic material.
- ÿ Do not solder directly to cells or batteries.
- ÿ Store batteries in a cool dry place.
- ÿ If find any noise, excessive temperature or leakage from a battery, please stop its use.
- ÿ When not using a battery, disconnect it from the device.
- ÿ Do not mix new batteries in use with semi-used batteries.
- ÿ When find battery power down during use, please switch off the device and take batteries out.
- ÿ Never put a battery into water or seawater.
